It is Grant County Gives Week.

October 31st—November 6th

It has been a decade of Grant County Gives campaigns for the Grant County Community Foundation! During the 9 previous campaigns, our generous community has donated a total of \$809,173.85. That has all been paid through to the participating organizations. GCCF donates all of the campaign organization expenses and advertising without retaining any of the donations to cover costs.

Each participating organization signs a pledge to use the money they receive from Grant County Gives in Grant County. So, all of the money donated will stay local to benefit the people in our community.

This year, the local business community has really stepped up to provide a record amount of Matching Funds! It is the highest ever at \$46,000. Each organization that is participating will receive matching funds according to the donations they receive from the public. At the end of the campaign, a proportional match is calculated and a proportional share of the match fund follows each donation as directed by the donor.

It's a sweet deal! We invite you to participate.

\$46,000
