

GRANT COUNTY COMMUNITY FOUNDATION

NEW FOUNDATION EXECUTIVE DIRECTOR! SABRINA GADDIS

Sabrina has been a resident of Ulysses since 2020 and comes to us after completing her tenure as the Director of the Management Development Center (MDC) at Fort Hays State University where she led the effort to establish the MDC as the premier training, development and consulting center in Western Kansas. Sabrina worked remotely for the past several years and traveled extensively for meetings and to facilitate training for clients.

Prior to serving as the Director of the MDC, much of Sabrina's previous career experience came from serving as the Executive Director of the Downtown Hays Development Corporation (DHDC) to revitalize Downtown Hays by coordinating the efforts of city staff, local business leaders, investors and community volunteers to develop special events, raise funds, market the downtown as a district and develop the downtown as a destination district for local citizens and visitors.

Sabrina is excited to begin her role as the Executive Director for the Grant County Community Foundation and looks forward to coordinating the efforts of the foundation board of directors and leading the foundation to experience continued growth for the benefit of grant county citizens.

In her spare time, Sabrina enjoys spending time with her three bonus children and supporting them in their activities, playing golf, traveling, reading, serving as a barista at Bear Creek on Sunday mornings for Brews Ministry, and being active through walking, yoga, hiking and bike riding.

Sabrina will be starting on July 1st. Feel free to connect with us to set up an appointment with her. You can reach us at 620-356-4223.
